## OFFICE ACTION

### *Examiner's Amendment*

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312.

#### IN THE SPECIFICATION:

Page 1, after the title, insert --This application is a 371 of PCT/IB04/50438, filed April 14, 2004, and claims priority from EPO No. 03101051.5, filed April 17, 2003; the contents of which are incorporated herein by reference in their entirety.--

### *Allowable Subject Matter*

2. Claims 1-8 & 10 are allowed. Following is the Examiner's statement reason for allowance:

The closest prior art, US 6,538,462 to *Lagowski et al*, discloses depositing an electric charge 15a to induce an electric potential difference between the exposed surface 15 of a wafer layer 5 [Fig.1 and col. 3] and the conductive body 17, and determining an electrical parameter relating to the electric potential difference. *Lagowski et al* '462, however, fails to teach or suggest "inducing an electric potential difference ... being a function of a thickness of the dielectric layer and a thickness of the at least one further dielectric layer ... obtaining measurement data being a further function of the thickness of the at least one further dielectric layer."

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
